

|   |   |   |
|---|---|---|
| <b>GRIPPER</b>  |   |   |
| Type of gripper (paralle / angular / concentric)                | ?   |   |
| Orientation of gripper ( hanging / lying )                      |   |   |
| <b>FINGER</b>   |   |   |
| Kind of gripper (friction grip / prismatic jaw)                 |   |   |
| Where gripping the piece (outside / inside)                     | ?   |   |
| Type of contact (rectangular / round)                           | ?   |   |
| Angle of prismatic jaw  |  <td style="text-align: center;">?</td>  | ? |
| Dimension of the contact / width of prisma                      | ?   |   |
| Minimal necessary stroke for finger                             | ?   |   |
| Height of gripping point from the top edge of gripper           |  <td style="text-align: center;">?</td>  | ? |
| Side overhang of gripping point from gripper axis               |  <td style="text-align: center;">?</td>  | ? |
| Mass of one finger [kg]   | ?   |   |
| Material of the finger at contact face (steel / rubber / other) | ?   |   |
| <b>WORK PIECE</b>   |   |   |
| Material of work piece at contact face (steel / rubber / other) | ?   |   |
| Friction coefficient / Form-fit                                 | ?   |   |

|  |   |   |
|--|---|---|
| Mass of work piece [kg]  |   | ? |
| Gripper width (distance between the jaws when gripping piece)              |  | ? |
| Height of center of gravity of the work piece from the top edge of gripper |  | ? |
| Side overhang of center of gravity from gripper axis                       |  | ? |
| <b>LOADS</b>   |   |   |
| Load (send drawing or look to "allowed load data" )                        |  | ? |
| Direction (send drawing or look to "allowed load data" )                   |   | ? |
| Acceleration m/sec <sup>2</sup> of the application                         |   | ? |
| <b>ANCILLARY CONDITION</b>   |   |   |
| Temperature  |   | ? |
| Application: grinding / assembly / mechanical machining / other            |   | ? |
| Operating pressure   |   | ? |
| Rating IP  |   | ? |
| Pressure plate   |   | ? |
| Safety device? If yes in what version: MC or MA                            |   | ? |
| <b>NOTE</b>  |   |   |
